SUMMARY

Full-stack MERN Developer with 1 year of experience delivering production-ready applications (AI SaaS, job portals, e-commerce, chat apps) with expertise in authentication, payments, and scalable cloud deployments. Skilled in problem-solving with 1000+ DSA problems solved. Currently completing M.Sc. Mathematics Computing at IIT ISM Dhanbad and open to opportunities as an **immediate joiner**.

EDUCATION

IIT ISM Dhanbad

M.Sc. Mathematics & Computing

2023 – 2025

CGPA: 7/10

EXPERIENCE

InterviewBit – Content Creator (Frontend)

Apr 2025 – Aug 2025

- Created tutorials and challenges on HTML, CSS, JavaScript, and React.js.
- Designed quizzes and real-world practice problems for learners.

Bindal Classes – Website Manager

Sep 2024 – Jan 2025

- Managed and updated website, adding courses and improving UX.
- Implemented new features and optimized functionality with dev team.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript (ES6+), SQL

Frontend: HTML5, CSS3, TailwindCSS, Bootstrap, React.js, Redux Toolkit

Backend: Node.js, Express.js, REST APIs, Postman

Databases: MySQL, PostgreSQL, MongoDB

Integrations: Clerk, Cloudinary, Stripe, Razorpay, OpenAI, Socket.io

Tools & Platforms: Git, GitHub, LaTeX, Vercel, Render

PROJECTS

QuickAI – AI SaaS Application *React, Node.js, SQL, Clerk, Cloudinary*

GitHub | Live

- Developed an AI SaaS platform with tools for article/blog generation, text-to-image, background removal, and resume review.
- Implemented Clerk authentication, optimized uploads with Multer, and cloud storage via Cloudinary.

Forever – Full Stack E-Commerce *MERN, TailwindCSS, Stripe, Razorpay*

GitHub | Live

- Built a responsive e-commerce platform with cart, order history, and dual payment integration (Stripe/Razorpay).
- Created an Admin Panel to manage products, users, and orders securely.

QuickShow – Movie Booking App *MERN, Stripe, Clerk, JWT*

GitHub | Live

- Built a movie booking app with seat selection and secure payments using Stripe.
- Implemented Clerk authentication with JWT and an Admin Panel for show and booking management.

QuickChat – Real-Time Chat App *MERN, Socket.io, JWT*

GitHub | Live

- Developed a chat platform with instant messaging, media sharing, and online/offline indicators using Socket.io.
- Added JWT authentication, profile management, and a responsive UI with TailwindCSS.

QuickBlog – AI Blogging Platform *MERN, Gemini AI, JWT*

GitHub | Live

- Created a blogging platform enabling users to generate, publish, and explore blogs using Gemini AI.
- Implemented JWT authentication with role-based access and personalized dashboards.

InsideJobs – Job Portal *MERN, Clerk, MongoDB*

GitHub | Live

- Developed a job portal where users can search, apply, and track job applications.
- Created recruiter dashboards to post jobs, manage applications, and view candidate profiles.

Imagify – AI Image Generator *MERN, OpenAI API, Cloudinary*

GitHub | Live

- Built an AI-powered tool to generate, download, and share images from text prompts.
- Integrated OpenAI API with a mobile-first, optimized UI using TailwindCSS.

ACHIEVEMENTS

- IIT JAM 2023: AIR 540 in Mathematics among 13,333 students.
- Completed CodeHelp Web Dev (DOT Batch) and DSA Supreme Batch.
- **GeeksforGeeks:** 650+ problems (Rating 1485) **LeetCode:** 180+ problems (Max rating 1441)
- **CodeStudio:** 190+ DSA problems (Rating 1669)
- 2+ years teaching Class 12 Mathematics with excellent results.
